Hi Tess,

Thanks for helping out on this. Attached is the draft scope of work I sent Hawaii (Word document) and the information on Dawson that Dan sent me (all the PDFs). Roxanne's number is (808) 586-4226. I have also copied her on this message.

Roxanne,

You and Tess can talk while I am out of the office (Thursday October 12 – Friday October 20). I would like to still have a conference call the week of October 23 for all of us to talk together.

Bob

Subject: Draft Scope of Work for Hawaii Contract Inspections

DOH folks,

Attached is a draft scope of work for the contract inspections that will be performed in FY18. I modified a scope of work that we used for contractor inspections we oversaw in Arizona. Please review and fill in the areas that I have highlighted. We also need an inspection checklist that the inspectors can use. This is just the first step in the process. Once you have had a chance to review we should set up a conference call to go over it. The next step will be to identify a subset of facilities you would like the contractor to conduct inspections. Then we can set up a call with the contractor to discuss their qualifications and to finalize the list of facilities.

I know there is a lot going on but at least this is not Red Hill, I'm getting tired of only talking about that project.

Bob
